PERSPECTIVE PLAN

INTRODUCTION

MAEER MIT World Peace Society's MIMSR Medical College, Latur envisions to create dedicated Medical professionals, who are globally competent, morally responsible and socially committed and highly dedicated to the noble cause of providing all possible Healthcare Services for the poor and downtrodden rural masses of the Marathwada Region in particular and the Society in General, with a humane and holistic approach.

The Mission of MAEER MIT World Peace Society's MIMSR Medical College, Latur is **"HEALTH FOR ALL"** as envisioned by the World Health Organization.

This is sought to be achieved through **state-of-the-art infrastructure** and **medical facilities**, in an **academically vibrant environment**, through **innovative practices** in medical education and research, inculcating Social, Moral and Spiritual **Values** in the Medical Professionals.

OBJECTIVES

1. To impart **value based training** in fundamentals of medical education
2. To prepare medical graduates with **necessary competence**
3. To deliver best **healthcare services** to community at large and rural community in particular
4. To inculcate the ethical, moral and social **values**
5. To encourage faculty and students to take up **research**
6. To motivate students to take up social and **community responsibility**
7. To attain **excellence and efficiency** of the highest order in the field of medical education, research and practice
8. To achieve **equity, excellence** and **efficiency** in all our endeavors
9. To introduce **Innovative practices** in Medical Education and Research

OBJECTIVES OF PERSPECTIVE PLAN

The objectives of the perspective plan are:

1. To provide high quality research oriented education and holistic health care as well as to encourage the academic industrious learning environment.
2. To produce competent and complete doctors who are morally responsible and socially committed and highly dedicated to the noble cause of providing all possible Healthcare Services with a humane and holistic approach.

- Establishment of Research linkages and collaborations with international universities and International institutes of repute

LONG TERM PLANS

- Proposal for Deemed University.
- Separate Administrative Block for University.
- Establishment of sport stadium
- Additional residential facilities for teaching and non-teaching staff

PROPOSITIONS FOR THE PERSPECTIVE PLAN

To create a Think Tank: The Intellectuals, thinkers, and academicians from various fields will help to devise policies, explore opportunities in quality research oriented education and also explore funding opportunities.

Representation of Professional Bodies on University Authorities:

Teachers from the College to become member of the BOS or any other governing body of the university. The views of these experts can be incorporated while making policies of Medical Education so that its scope widens.

Health Care Delivery:

More emphasis on giving preference to un-served and underserved. The facility of treatment for common diseases so as to achieve equity in health science education facility.

Public Private Partnership in Super Speciality:- To implement the different schemes of Government.

Faculty Development:

Department of Medical Education was established in the year 1997. We take initiatives in organizing refresher courses for Medical Teachers especially in Medical Education Technology and separate cells can be started on regular basis by organizing interdisciplinary seminars on subjects of recent importance. Online courses will be made available for increasing faculty being trained in education technology.

Need Based Research

To promote research in collaboration with technical institutes, industries and an attempt will be made to promote patent acquisition.

Separate Clinical Trial Department - To conduct trials as per the requirements of the industry.
